Petition in Support of a National Housing Strategy

To the House of Commons in Parliament Assembled

We the undersigned support a National Housing Strategy that will, in consultation with First Nations, harmonize the work of all levels of government to ensure secure, adequate, accessible and affordable housing for all Canadians.
We call for an increased federal role in housing through investments in

- Not for profit housing;
- Housing for the homeless;
- Access to housing for those with different needs including seniors and persons with disabilities; and
- Sustainable and environmentally sound design standards for new housing,

that go beyond the one-time stimulus investment contained in Budget 2009.

We ask that Parliament ensure swift passage of Libby Davies' Private Members' Bill C-304, *An Act to ensure secure, adequate, accessible and affordable housing for Canadians.*
